PROJECTS

Free-food (Extra Food Donation) || Code

Community Food Sharing Platform: Built a full-stack web app using React.js, Firebase (Auth), Express.js, Node.js, MongoDB with responsive UI using Tailwind CSS.

Key Features:

- Firebase-based signup/login with account management, and full CRUD operations for adding, updating, and deleting food items.
- Displays donor/recipient name and image with real-time updates using Firebase–MongoDB integration, along with a responsive Tailwind CSS UI.

Gadget-Heven (Tech Accessories) || Code

Developed a dynamic e-commerce platform for tech gadgets like mobiles, watches, and accessories. Users can browse, sort, and purchase products easily.

Key Features:

- Users can browse and sort gadgets, view detailed product pages, and add items to cart or wishlist with Toastify notifications.
- Includes purchase history and payment display, all within a clean, mobile-friendly UI built using Tailwind CSS.
